Description

AC surge protector (also known as SPD or lightning protector) I2R-75KH240 from Transtector is a UL1449 4th Ed. Type 1/Type 2 DIN-Rail style SPD that utilizes state of the art MOV technology to protect critical equipment that operates on a 120/240 Vac 3-Phase Delta (Hi Leg) electrical service. This surge protector provides effective protection against electrical transient surges that are generated both by external lightning events and by internal switching events and supports long-term system reliability by safely shunting high amounts of transient energy while maintaining a very low clamping voltage. Transtector AC surge protectors are available in stock with same day shipping.
